I loved reindeer do wear striped underwear! It was about 4 kids and they went to the zoo and they got off the bus and the teacher, Mr. Zeb said stay with your group. So then the kids went off and they found a sign that said reindeer. They followed the sign. Melodey, Leza, Howwie, and Eddie found Santa's reindeer sick. They had to do something you have to read the rest of this five star book and figure out if Christmas is ruined or saved.!!

Very cute story for Christmas time.

My favorite part was when all of the reindeer pulled Santa's sleigh at Christmas. The worst part was when all of the reindeer had colds. My favorite character was all of the Bailey School Kids. There was no worst character. Aryn 10 years old, 2013

I read this to the kids last week one night. The kids all paid attention to the whole book, but they were exhausted. It was short and simple. I didn't really like it and will not be keeping it, but the kids enjoyed it well enough

The book was nice but very short.

Four friends go to the zoo with their class and discover that Santa Claus and his reindeer are there. However the reindeer are sick and Christmas might be in jeopardy. Our heroes must work quickly if the holiday is to be saved. Given that this is a children's book I daresay I don't need to tell you how it all turns out. I enjoyed this little romp. The idea that Santa and his reindeer might be staying at a local zoo is definitely one I have not come across before. As well the idea of reindeer wearing striped underwear is one that

definitely produced some laughter.

If you have child that is at the age where they are starting to read this type of book then this book would make an excellent stocking stuffer. Who knows, it might even keep them quiet for awhile on Christmas Day.

It's about these kids who go on a field trip to the zoo to look at all these animals and this one boy likes to scare them. I liked it because it was funny.

A very cute story about 2nd graders on a field trip to the zoo near Christmas. The reindeer get sick and one boy in the class is on the naughty list. He has to figure out away to get off that list. it is a level 2.6 in AR.

This was Emme's first chapter book that she read all by herself! I am so excited to have a little reader!

### **Brooke Birchler says**

I thought this was a really cute and interesting book that would be good to read to children or to have them read around Christmas. This would be good to have a child read if they are just getting into chapter books.

### **Kayla Whitlock says**

The Bailey School kids are at the zoo and notice that the reindeer are wearing striped underwear. Do the reindeer belong to Santa Claus? Why are they at the zoo and not the North Pole? This book did have some laugh out loud moments for my 7 year old son. It was an okay read. Definitely lots of books that are better to read than this one.

I had no idea that there was another series within this series. I guess this series takes place before they're in middle school? Or something.

I just thought it was cute, it seemed like an introduction to how the kids got into solving mysteries and having such big imaginations.
