## Sacrifices: Kingdom of Ara: Episode Four Nicholas Bella

Théoden: It looks as though I have everything I've wanted, well, I do, but I paid a high cost for it. The loss I've suffered will never happen again if I can help it. Right now, my sons are enjoying their night off from their duties. I think after what happened, a little fun and lots of sex is just what we need. Although I'm indulging myself in good times, my eyes are always on the future and what it holds.

Noel: The fact that I almost died isn't lost on me at all. I plan to make the most of my life for as long as I live, and considering that I'm immortal, my future is looking pretty bright. As for my son, Romeo, I'm going to be putting him through a few of my tests. He needs to prove himself not only worthy of the House of Théoden. He needs to prove himself worthy of me. I won't be letting him off easy.

Deacon: It seems that everything that I had been plotting for has completely blown up in my face. Elijah isn't happy with me, but he's my mate, we'll get through this. We have to. I know one thing, in spite of my original plans backfiring... I still see hope.

Josef: The sacrifices I've had to make and still need to make are weighing on me. It's not easy to lose damn near everything that meant something to me in hopes that what I gain will be worth it all. I have to believe that claiming my mate is worth the risk of losing my sons forever. Only time will tell.

Warning: This serial contains strong adult content not meant for sensitive eyes. The novelettes in this serial will be filled with dark, twisted, raunchy and steamy scenes between powerful, sexy men that will either offend you or get ya revved up. This series will not be pulling any punches, and it won't apologize for hurting your feelings, either. You'll find no fluff and ruffles here. The vampires are not misunderstood, hopeless romantics looking for love. The werewolves are not cute and cuddly, and the dragons aren't the ones from your childhood. This is NOT a romance.

### Latoya Wilson says

#### More cons than pros

Like all stories I read, short, long or in between no matter the genre, I give four or five star reviews. If I gave a four, I wasn't happy. Okay, I was referred to this series because I was looking for a balance between romance and paranormal, so I sort of knew what I was getting into. SORT OF!

First book was fabulous: there was a hero already in a really, really bad situation and I was rooting for him to survive the horror of being forced to become a blood sucker hybrid. At this point, I'm settling in for a great read. I'm thinking he is going to use his newfound power against his master(s)... at some point. Nope. The storyline steadily progressed to a confused victim concerning his sexuality, his systematic brainwashing with rape and torture, and then just raunchy sex, which I don't mind in the least because it's a story... but it stayed there. Pages and pages and pages of it. Book after book.

Every now and a very far off then, the plot moved away from paranormal, brutal rapists to suspenseful with hints of crooked villains of every species and impending doom, and then we went right back to pages and pages and pages of the confused victim turned sadist like his mentors and brutal sex.

I know this is erotica, dark, but each book reads the same. Nothing changes, except the sexual partners, many, many of them. So many one-dimensional characters crop up alongside the two-dimensional ones, terrified, cruel, or straight freaky, that's the limit, and as the books get longer with way, way more sex, I started forgetting characters, wondering wth did he come from, and does he have a purpose besides being raped too... repeatedly. Then I was like 'Oh yeah, he was mentioned in the other book.'

Trust me when I tell you this author's imagination is so far out of the box, it's sitting on the horizon only seen from some tiny island NOBODY has heard of, which is good, it shows his individuality, but it runs in circles. Hot men sleeping with each other wherever, mainly against their will, and long drawn out conversations between villains that last three to about seven pages.

There is no point in skipping to the end like I tried to do to find out if Noel ever made it back to his rebellious nature that had me rooting for him in the first place. When I did that, something got lost in translation about the main character getting hurt, but Noel does sink further into the 'rapist and I'm better than you puny human or vampire' mentality, and no this story doesn't end. It jumps to a spin-off series instead.

This is where I jump to imagining a HEA for every freaking body, even the dead slaves and fleshbags. So... if you like past dark characters with an extra bite, cruelest than most, and attitude, I love Noel's and Dante's spunk in the beginning btw, this is the read for you. Let know if Noel ever gets free, along with the humans he wanted to save.

### Elsbeth says

#### BR with Julie

After 19 books of the New Haven series, this series came to an end. I was expecting it to end in a BIG BANG but regretfully not.

Sooooooo I'm just asuming we won't have to say goodbye to Théoden, Noel, Marco, Bruce, Romeo. etc etc  
Yes, of course no end to the Vampires. We're only going to get MORE of the wolves and dragons.

Right, right Nicholas?

It didn't really feel like a closure. More like a push to the new series which I'm very excited about.

Cause.... Josef and Dante's mating surely has to occur sooooooon

I'm ready!!! :D

---

### **Mimi says**

Wow!! Their are so many different plot twists, ideas and scenarios that are running in my mind.

Now here comes the hard part waiting for the next season.

Highly recommend!!!

This book has been one hell of a ride in this serial. Gosh, I fell into Nicholas Bella's world by luck. A simple video on goodreads, and found myself intrigued. And, wow what a crazy fantastical world it is. And, I found happiness.

In this you will find

Wolves  
Dragons  
Vampires  
Kings & Princes.  
Slavery  
Bondage  
Complex well defined characters.  
Great pacing.  
And, Sacrifices.

This is one hell of a ride.

This writer that dare to go where not many have gone. Some can stomach it and some can not. It to me is a

totally mind fu\*\*

And the ending...didn't feel like a final....but,

OMG, what is coming for my guys.

I really love the series, but I had some niggle's

They were-

The description of filling the guts with semen not an image I like  
The pissing games not one I EVER got into.

And this book which did not feel like a finale, it felt like a unfinished-saga... I really needed my guys to close this up and mate. I'm so disappointed.

---

### **Cadiva says**

The level of detailing in the plotting is nothing short of incredible, I don't know how Nicholas Bella keeps up with all the different narratives he has spinning in the air when it come to this series.

While Deacon and his wolves are plotting to undermine and seize control, Theoden is playing a long game with the unwilling help of Josef and his werewolves and the dragons have a whole different reason for getting involved.

The sex, as ever, is creative, erotic, explosive, dangerous, exciting, punishing, painful and controlled.

---

### **Anne says**

Damn, that was a great read! I am a big fan of the New Haven Series right from the start and this final is...it's amazing in all ways possible. It's sexy, dark, hot and is a mastermind of cruel, epic political games within and between the territories of New Haven. To read about Theodens plans with Josef's pack, Deacon's ideas of getting his evil plans fullfilled and Josef longing for his mate and his own plans regarding his family and pack to come true, it gave me a cold chill running down my spine. And it left me in tears, too; just thinking about the funeral ceremony...

And this evil little cliffhanger at the end!! I so can't wait to read "The Odin Chronicles" now!!

### **AGandyGirl says**

Well, the Nicholas Bella journey began for me on August 17, 2015, and I have not regretted it one minute. 19 books later and this series has honestly left me so emotional. What a journey it has been.

Overall this episode alone is quite good and in keeping with the series, however a "series finale" it really wasn't and for me I think is the reason it left me quite sad. For 19 books we have had the joy of getting Noel and Theoden's POV and while their story has come somewhat to close (I get the need to step away from them as far as story telling goes), but I needed more of a send off and more of a goodbye from them. I needed more of Marco quite frankly. Yes, we get a couple of exchanges with him, but his character and interactions with Noel were absolutely some of my favorites of this series. I needed him. We did get other closure with Noel and Romeo finally had some great moments on page as well.

Now, as for a finale, this really is not the end of these characters or this world. The view is just changing. We have a new threat entering the picture which will impact more the dragons and werewolves and so Theoden and his family will no longer be the central focus, but undoubtedly will be huge allies to others moving forward.

My hope is for us to get Ty and Dante as new POV's. I have to believe Deacon and Josef will also remain front and center along with this new threat. This threat I think is in for a rude awakening entering Odin...I am quite excited to see what happens.

Until then, I will wipe my tears and try to wait patiently.

Thank you Els for continuing on this journey with me.

This series is highly recommended...but be sure to keep a dirty open mind and just fall into the world of Bella.

OMG Please Read These Books You Will Never Read Any Thing Better In Your Life. Once You Start Your Avenger You Won't Stop. I Can't Wait For The Next Episode Of This Article To Begin. My Congratulation Go Out To Author Keep Writing

---

### **Lucian says**

This is the final book for the New Haven series, but its not the end of their tale but just a beginning. A while ago, I was deeply moved by the writing. Nicholas Bella not only writes a compelling story, but his books speaks deeply to one's soul. It might not be pretty. His books were never pretty. They were dark and sensual and depraved, but these quality are good for what it was. Erotica with a huge deep plots like these are rare. But if its for you, you'll be addicted to it. Not one of the characters are one dimensional but the book makes you work for it to see each of them in a different light. The world of Theoden is expanding and Noel's tale has just only began.

Sacrifices is the last of the New Haven series but fear not it is merely making way for the rest of its universe. The Odin Chronicles would certainly be well received I'm sure. This book is an emotional one for me. We get to see a more emotional side of a few characters. well, as emotional as they could be (remember, his books were never sappy). You get to see characters change and grow into different persons. It is as though each book of the series you read in the past is a small investment and now it's Harvest time :) I would foresee myself staying as a loyal fan for the rest of my life.

I see myself loving characters I would never expect myself to love, hate characters that I usually don't care of and of course falling deeper in love with characters I've already adored. We get to see a small history of Theoden's past, it was a beautiful history that would certainly hold a place in my heart for the rest of my life. The series has yet to meet the limits of its destiny and in my heart I hope it never would. But for now, its the curtain call and I am standing with ovation. I will await patiently for the next show :)

### **Levi says**

...and with this we say good bye to New Haven Series.

This series was my very first experience of MM dark erotica. I wasn't looking for it it just happened to be recommended to me by Goodreads. I liked the cover, it was hot, and because the first book was free i gave it a try. Oh my, i was hooked up by the time Noel was embraced.

I finished the first 16 books like in 3 days max. I became to love Noel and his brothers, i'm enamored with Deacon and Elijah #DEALIJAH 4ev3r! , but can't stand Theodon even if he has a lot a fans among our secret group on Facebook, created by our kinky author Nicholas Bella .

I'm not sad though that the series is ended because an other is starting ... Odin Chronicles ... so i invite all of you to stay tuned and follow the kinky stories of Vampires, Wolfs and Dragons ...

---

### **xxkitsunexx says**

5\* absolutely loved this series from beginning to end its a dark dark sexy edgy story and you cannot help but love the originality of this aurths world building and characters Noel the main character with Theoden pov also although this is the last book from this series the characters are continued in his other series ( The Odin Chronicles).

P.S if anyone can recommend stories like these to me that they also liked i would be grateful :-)

---

**Michele Evans says****Crazy twist there at the end**

Now I have to read the next series to find out what happens...I'm on pins and needles!!!! What's going to happen ??

---

**William and Julie Evans says****Fantastic!**

This series had me hooked from the start. Would have been an easier read if the novelettes were all as one book as sometimes looking for the next one in the series was tiresome and time consuming. Bloodthirsty, sexy full of tall dark handsome vampires, wolves ,dragons just what you want from a good read.

---

**Tina says**

Sacrifices is the last part of Master Nicholas' New Haven series and boy.... did he deliver with this one.

It's fast paced, dark, twisted, sexy, steamy hot... and kept me turning the pages.

Can't wait to get back to Theoden and his boys... and all the other supes in the upcoming Odin Chronicles.

Btw... who the hell is Kendrick Sahr? A new threat to Theoden and his boys?

---
