Victoria grew up living a lifestyle where she is use to getting what she wants and living a certain lifestyle. She is in school working hard to obtain a great future, like any normal college student she does her work and parties and hangs out with her girls. Victoria is harboring a deep emotional past that comes to surface when she meets a guy by the name of Keys. Keys seems to be a great catch to Vic, they talk and laugh and get to know each other very well. She even lets him in on the one thing that's holding her back from getting to close. Vic and Keys seem to hit it off well, but what happens when your heart and mind aren't on the same page? What would you do when your heart is deeply involved and your no longer in control? How far will these characters go to protect their hearts, or get back at the ones who they love?

This was my first time reading from this author. I give the book 3.5 stars. I felt like the book did have its moments when it was really good and I was into it, but then I felt like there were some parts that were just like ok. Some parts I was like wow I didn't see that coming, but other I didn't really understand maybe I needed to read the authors other book to get the back story, since I see some these characters are in another book. I liked Keys for the most part and I liked the love he showed to Vic. I think if Vic had been more honest in the beginning about her feelings towards things with Key a lot of things wouldn't have happened. Keys tried as hard as he could to show her he was for her. The book does contain some action, drama and a few shocking moments. I would probably read part two because the ending left me shocked.

This was a great story of love, revenge and betrayal -- hence the title. I enjoy the way the book intertwined the characters of Coke Dreams into this story seamlessly. This series has held my interest and has me looking for more.

I thought this was a really good read! I am so ready for the next book! Keep it up Arabia! I do recommend!

Part 2

I am really convinced the Arabia is related to Wahida, Kwan, or someone. This an amazing author and series. I like the way this book was about new characters but sprinkled in just enough of the old characters. A must read!

So Damn Good

This Book Is So Damn Good. I love how you feel like you are right there with the characters like they are your best friends. I got angry with them, I cried with them. If you never read another book please read this series.

Another Page Turner!

Another Page Turner!

The drama continues. Arabia is doing the damn thing! this book had my adrenaline going. You would think I was watching a movie. I feel bad for the characters (like I know them). Lol I like how the author goes into detail from their outfits to their feelings. I am loving this series and it's not over yet. I will be sad when it is.

This book had me on edge lol. Vic and Keys are so cute they are my second fav now. Cant believe how Coke and dem came into play in this book that was hella crazy to me. But I'm glad everything was good. Now that ending was def unexpected and it made me sad can't wait to start book 3

Whew!!!

This was a definite page Turner!! I so love Keys. He was everything and more!! Vic got on my nerves a little bit about the Money situation, but it was understandable. She was giving my boy Keys a hard time. He didn't play when it came to her. Loved Britt and Candace's characters plus their better halves. It was nice how the characters from book one meshed so well with these. I had to shed a few tears with Jay at the end. Headed to read book three now. Great job Arabia!!

D Marie says

Vic and Keys are a cute couple. Through all of the bs, they still stood strong together. I loved Vic, Candace and Britt as a crew, but they still were not as live as the girls in the first book. Monica and Reni punk ass get on my nerves and I hope crystal gets dealt with. On to book 3.

Queen Brown says

This book had so much drama, twist & turns that I stayed up all night to finish it! Keys was the man, I loved him from the gate for Victoria. Ms. Dover did a fantastic job creating a storyline full of love, deception, murder & friendship. There were even some moments that were witty & had me chuckling. (Loudly) I cried, paced my floor & boiled over in anger as I could not put the book down! Candace though? *sighs* That ending left me craving more! This is definitely a five star read & I highly recommend it! can't wait to see what happens next!

Zaneta says

Girl, I loved it.

I absolutely love this author ~ there are always a lot of twist and turns so you have to pay attention and keep up. There are all different levels of scorned and each couple is scorned in some way or some level

Maebelle Richardson says
