## From Reader Review The Fourth Dimension: Discovering a New World of Answered Prayer for online ebook

### Tawanda Svovera says

This book is a must read for any Christian seeking to put their faith in action. Faith becomes practical and it becomes 'less talk more' action. It is a pragmatic book and very applicable to anyone who dares take a leap of faith.

---

### Rachel says

The author had some interesting insights about prayer, as well as real life stories and examples from his experience to back up what he said. I don't agree with everything, but it's worth reading for sure.

---

### Gina says

A must-read book for every believer, and dare I say, non-believers as well. Because the 4th dimensional world is something that we all can tap into as human beings. But as children of God, we tap in with authority that marries with God's authority, and that gives us power over all the things of earth. Dr. David Yong-Gi Cho explains very well on the spiritual realm that governs the earthly realm we live in, and how we can tap on the spiritual realm to lead a purposeful fruitful life for God.

### Wendy Caleb says

Partly the same as the first volume. The contents are laid out in more detailed and extended exposition. But, doesn't mean no need to read. We should. Because, we people are always forgetful. We need reminders.

### jOsEpHiNe says

I haven't actually *read* this entire book, but it is very unique and might actually change your **life**,

Read it with your family or a group, that way you can discuss it.

It's not so much the writing that gets me, it's the **miracles**. The fact that the book was ever written is one of them. I won't give this away because it is so worth reading.

The **FOURTH** dimension is a philosophical view of humans, God, and prayer, and the book will definitely be convincing and maybe make you cry.

No, it isn't a story. It isn't a how-to. Not a non-fiction or whatever. It's just about the fourth dimension that is

so difficult to see. But so close to us.

### **Adam says**

I'm re-reading this book because it's great.

---

### **Daniel Oon Yong Lin says**

in this book Dr Cho goes through many important essentials that a Christian must have, he went into specifics of what he would call 'creative command'. As pastor of the largest church in the world, his anointing is massive. Dr Cho had humble beginnings, he started after attending seminary and preached from a tent church where he never had a good meal. Truly a man of God. This is a book that you must read if you are a follower of Christ. It goes into your library of books.

### **TELMA PEREZ says**

### **Mr Gregory Mepham says**

**A must for knowing the truth and being set free..... indeed**

**A must for knowing the truth and being set free..... indeed**

a clearly defined plan or method to walk in overcoming victory and miracles.... just follow the plan and begin to move into your inheritance

### **Hadi Wijaya says**

This book tells us about faith. About how we live by faith and not by sight. It contains of faith stories of Pastor Yonggi Cho from Korea who's already proven that our God is awesome if we have faith on Him.

I make many notes based on this book. I change my prayer and I change my perspective about faith. This book content is very practical and makes me realize that in the past I have wrong view of faith all this time.

But now I will live by it and I believe God will give the best.

Overall, I am blessed with this book. Also I am getting excited and challenged to improve my faith in everyday I live.

### **Louetta Powell says**

I actually liked this book better than volume 1! This is NOT New Age. This is very scriptural and explains how the principles in God's Word are very effective. Unfortunately, for many generations the Body of Christ abandoned these principles and they were perverted into what is now considered New Age practices. Read with an open mind and an open Bible near by so you can see for yourself that these principles truly are indeed biblical.

---

### **Hui Shi says**

Long winded and confusing explanation on how to use the mind to create the reality that your heart desires and that desire should ultimately be love. Basically know that your feelings, thoughts and actions sends out energies into the world (which is the fourth dimension), focus on what you are becoming, think of yourself as already being in and use the right words to help you focus.

Two star only because as much as the author tries to convince Christianity is the 'true' religion, he should not have denied other religion as false or deceitful.

### **Christopher Lewis Kozoriz says**

"God's love causes us to act and not react. God's love causes us not to be satisfied with the approval ratings given by people, but the approval of the Holy Spirit. God's love causes us to love our critics. God's love causes us to see beyond the present trial and look at the goal of our faith. As we learn to walk in love, we rekindle the hope without which it is impossible to build anything." ~ David Yonggi Cho, The Fourth Dimension: Volume II: More Secrets for a Successful Faith Life, Page 173.

Currently David Yonggi Cho is the pastor of the largest church in the world with a membership of 830,000. After reading his books, you can see why he would attract such a large membership. Particularly he is filled and empowered by the Holy Spirit.

After reading his book, you will be greatly encouraged. At first, I was wondering what he was referring to when he mentions the fourth dimension. After reading his book, you will find he is talking about operating in our dreams and visions given to us by God. I particular liked how he encouraged one to talk to God about our dreams and visions in prayer.

Must read for any pastor!
