Things are moving forward! Elizabeth gets some character development, Meliodas and Diane get a little depth to their characters, and we meet Ban (aka Greed). I also think the plot is gonna take off from here based on Ban's conversation with Jude. And honestly, I'm hoping for an all-out war between the Sins and the Holy Knights.

in questo volume si approfondisce la figura di Gilthunder, che per Elizabeth è un fratello maggiore e un conoscente di Meliodas e Diana quando erano al servizio del re, dopo uno scambio di colpi Meliodas si fa rivelare dove sono gli altri peccatori e lui gli rivela che “Fox sin” è in una prigione sorvegliata da quattro cavalieri sacri e “Grizzly sin” è morto quindi si trova nel paese dei morti. Gilthunder viene preso da Diana e scagliato a chilometri di distanza. Mentre Meliodas viene curato per una ferita provocata da Gilthunder, Diana va a cercare il peccatore Ban il “Fox sin” così i quattro cavalieri iniziano a mettere in atto una trappola ai danni dei protagonisti, mentre nella prigione Ban si è liberato da solo e comincia mettere sotto sopra il castello. La scena più bella è quella quando Elizabeth viene straziata dal cavaliere sacro, che tutto spavaldo dice di aver ipnotizzati, Diana e Meliodas, quindi la ragazza sorride e sputa il campanello che era attaccato al bastone del cavaliere. Come secondo iniziamo ingranare la marcia rispetto al numero uno. una cosa che si scoprirà nei prossimi volumi è la spada spezzata a cosa servirà?

So the clashes begin with the holy knights but if you think that the fights will be with just swords and axes you are very wrong there is magic beyond imagination and normal level of thinking

I loved this book, at first the only reason I read it was because of a fanfiction I'm writing with a friend, but I'm also a really big fan of the show and I love the story behind it, My favorite couple in the series is Ban and Elaine: they're so cute together, but it's really sad how their relationship ends.

This volume introduces us to Ban, our third Seven Deadly Sin and probably ~~the hottest one~~ (yep, fine with admitting that under a slash). He's probably going to be the character that will make me quake in my boots every time he comes on screen (you know, the good kind of quaking). ~~Why can't Ban be the Sin of Lust?~~

As you can see, my fangirl hormones aren't in check. GAH! CURSE YOU HORMONES!

Here are some photos to celebrate my newly acquired manga/anime crush!

If anyone needs me, I'll be in the corner fanboying my head off.

Woo! Things are really heating up now. Some epic battles happening in this volume. I love the anime but I suspect, like full metal alchemist, the manga storyline may be a bit more filled out. I'm excited to pick up the next volume.

The good:

- Meliodas character is very compelling.
- Diane backstory, and even the fact that she is Envy, is heartfelt.
- The plot thickens. What are the motivations of Meliodas? What is the broken sword?

The bad:

- The setting is a common place, I haven't seen something magnificent from that world.
  - The battle scenes are very blurry at times.
  - The enemies are not very original.

Holy god. This one introduces my favorite character in the entire show. I love Ban the Undead. I have think it's his extremely arrogant nature, that just air of him knowing he's better than you that draws my attention to him. Anyway. I loved the way they introduced us to Diane and Ban. Elizabeth is getting a bit smarter, and we see just how powerful Meliodas is (currently). I am looking forward to reading the next few volumes in the series.

**\*Spoiler Warning\***

The second volume was just as good as the first one! New characters were introduced, and the plot continues to thicken!

The art is still excellent, and the character designs are continuing to be good.

Gilthunder seems like a promising character, and one that already has some depth after only one confrontation with the main characters. Ban is also a promising character but he is more interesting to me. It seems as if he is a somewhat "playful" guy in a menacing way, and he's not a very kind person. Meliodas's character continues to elude that there is something in his past that has been haunting him and I can't wait to know more. Elizabeth's character has seen a new development; she has now grown out of her stereotypical caring princess mold and I couldn't be happier! It also seems like her sympathetic personality could be a flaw as well as a strength. Jericho is an overconfident character and I hope she will be revisited.

Chapter 6 picks up right where chapter 5 is left off. It officially introduces Gilthunder as a character and gives us some insight into him.

Chapter 7 shows us that Meliodas isn't as immune to wounds as we thought he was, which proves to be interesting. I hope later on in the series it'll show us the limits to his strength and some sort of weakness. This chapter also shows us what's awaiting for us at Baste prison, and it made me wonder how the Sins were going to handle it. Especially since that Weird Fangs order seems like bad news. Also this chapter made me wonder about Ban's character cause this man has been tortured for years and yet he finds it in himself to hum.

Chapter 8 shows us Meliodas and Diane's past and it shows to us that Meliodas also has an over caring and sympathetic nature that seems to rival Elizabeth's. It also shows us that Diane is incredibly scared of bugs and that she will overcome her fears if it means helping the people she cares for. I hope that later on in the series this'll be put to the test. I also found it interesting that Diane and Elizabeth want to do what the other

can do.

Chapter 9 helps us see just how far the Holy Knights will go to get rid of the Seven Deadly Sins. It also shows us that Ban seems somewhat immortal and I can't wait for that to be explained! Especially since the only wound he has was caused by Meliodas's sword; it makes me intrigued as to what's so special about this sword. This chapter also makes me wonder what each of the Sins did to be branded with the marks of beasts, especially Meliodas.

Chapter 10 proved to us that Elizabeth's caring nature knows almost no bounds and it makes me wonder as to how Meliodas's wound healed so quickly. I hope that will be explained later on.

Chapter 11 also showed us that Elizabeth's caring nature knows no bounds. This chapter also gave some insight into Meliodas's past and it makes me wonder what type of bond he had with the woman who died. It amazes me that Meliodas can be so casual with all this violence and I hope this will be explored later on. Also, I wondered what Diane had been doing this whole time, apparently she can't remember a thing that's happened since she left Dalmally.

Chapter 12 made me curious as to what would happen now that both Diane and Meliodas were under the Holy Knight's spell and were both fighting each other! I also worried for Sennett because I didn't know what Ban was going to do.

Chapter 13 I liked this chapter as it showed us that Ban certainly isn't the greatest person and is very insensitive to others (he already did that by stripping Jericho of her armor but us seeing it solidifies it). I also love this chapter as Elizabeth proves to be true to her word and also is smarter than she seems. This chapter also showed us just how cruel the Holy Knight, Ruin, is and it was frightening to see how he behaved.

Chapter 14 was awesome! We further get to see how strong Meliodas and the Holy Knights are, which was pretty awesome to see and we get to see that Ban is basically immortal which is gonna make for a pretty interesting back story.

Overall, this was a great installment in the series and I can't wait to read the next volume. My one problem however is if Meliodas could take all those hits from Ruin then how could he get seriously injured from a slash of a sword mixed with lightening? Seems pretty unrealistic and it doesn't add up. I would recommend this manga to people who are interested in or are looking for a story with lots of action, adventure, and fantasy. I wouldn't recommend this manga to people who aren't interested in the fantasy genre, to people who don't care for violence, and blood, and to people who may be uncomfortable with some perverted or suggestive moments.
