Twelve-year-old Anisett's father died on the long journey by wagon train west to California. Now her mother provides for Anisett and her little brother by selling food to the miners. When Anisett finds a chunk of gold in the stream behind their little cabin, she knows this discovery could end the hardship of her family's life. When a desperate, gold-hungry miner learns of Anisett's discovery, he takes Anisett and her family hostage and threatens to kill them if they don't reveal where they found the gold. Anisett put her family in danger - now she has to save them.

One of the early books from the American Diaries series and a good read for middle grade girls who like historical fiction.
