### AGENT UNDERCOVER

When a woman drags Blake Harrison out of his wrecked car, he knows the mysterious stranger has saved his life. But more shocking than the hit-and-run is the news that a crime cartel has infiltrated his factory.

There's a fortune to be made by tampering with the factory's products...but only if Blake is out of the way. Undercover FBI agent Heidi Zimmerman has two goals—catch the criminals in the act, and keep Blake alive. Falling for the single dad and his adorable daughter isn't in the plan.

But everything changes when an abduction leaves Heidi face-to-face with a killer, revealing the danger that's been hiding in plain sight all along...

COVERT JUSTICE is Ms. Blackburn's debut Love Inspired Suspense. I enjoyed reading COVERT JUSTICE and it held my interest all the way through. There aren't many LIS books where the heroine is an FBI agent and the hero is the one trying to survive. I also liked how the attack was more subtle...using chemicals to wreck havoc.

The apparent villain is known, but not everything is as it seems. It did keep me guessing how things would end. I was a bit confused how Blake did know the villain though—I missed that connection somewhere. Heidi was definitely brave, but she struggled with real issues most of us would struggle with in her situation.

If you like romantic suspense, give COVERT JUSTICE a try. It is one of the better ones I've read.

4.5 stars. Available in ebook and paperback. 224 pages.

This book was provided by the author and The Suspense Zone in exchange for an honest review.

I received this book free as an ARC. Heidi Zimmerman is an undercover FBI agent trying to bring down a mobster. Blake Harrison gets in the way and she has to protect him. She goes to work as quality control. After a lot of mystery and a few injuries Heidi starts to see who is responsible.

A heart pounding, heart stopping, suspense book! The fact that this is a debut novel makes it even better. I look forward to reading more from this great author. There is an adorable five year old in this book that I absolutely fell in love with. Here is a quote from this character that tells just how precocious she is. "I think you're wrong about her hair. I don't think her hair got curly because she put her finger om a socket. I think she was born with it." I can so relate to this quote since I also have naturally curly hair that is often on the wild side.

In addition to all the other great things about this book. I especially love the Inspirational thread. Here is a quote from the book that I love and also illustrates what I love about this book. "Where had that prayer come from. He and God hadn't been on great terms for awhile. He had never stopped believing. He knew that God was in control, but with everything that had happened with Lana it felt as though God had let him down. Still in this moment, he knew there was no higher power he could turn to. He couldn't protect everyone he loved, no matter how much he wanted or how hard he tried. Even Heidi with her ever growing team of FBI agents couldn't guarantee their safety."

This book was well written. I hope she will write more books because I love her writing.

I just finished Covert Justice. Kudos to Lynn Huggins Blackburn on her first novel. It was interesting with unique twists and a "satisfying-without-being-too-predictable" plot line. The author also seasoned the story with a nice mix of believable faith elements. I was a little slow to engage with the book initially, but as the chapters went on, I felt the author found her stride, rhythm and character development. I recommend it as a story with a unique spin that separates it from what a reader might expect from some mystery/romance plot lines. Congrats Lynn!

What a great book. I really enjoyed it. The first chapter draws you into the story.

It was wonderful to have the roles reversed in this book. The female is the professional in law enforcement. Right from the beginning she, Heidi, is there to protect and save Blake. Blake doesn't seem to understand why someone is trying to kill him. Blake and his family owns a factory and a crime cartel is trying to take it over for their needs.

I liked both main characters-they were both strong and believable. Even their romance was believable. The action in the book was great ( I don't want to add much about it-you need to read the book.) Many twists and some people getting hurt before the 'bad' guys are caught.

An excellent read.

Wow -- my head's still spinning. What an incredible debut novel. Really unique opening. Loved the role reversal with Heidi being the professional and all about the protection detail. And the suspense? Oy, I couldn't figure it out. But I didn't feel so bad because neither could Heidi and Blake. I mean we know it involves a crime cartel but we don't know what they're up to...or why. And the author plays her cards close to her chest right to the very end. Heidi and her team kept looking for motive and I kept offering them suggestions but they ignored me (which is just as well since I was wrong, wrong, wrong!) And that's not the only suspense in this book. Heidi is quite the mystery herself. Her story is revealed by slow degrees and that kept me riveted trying to put the pieces of her puzzle together. Brilliantly done.

Pretty good for a debut novel. Enjoyed the fast paced opening & the book kept going at a fairly good clip. The characters were mostly believable & I liked the cast. Will definitely read more of her books!

3.5 stars.

Blackburn packed a lot into this short contemporary. So much, in fact, that I'm still catching my breath days later - one reason I don't as a rule read suspense.

But I'm glad I picked up her debut, if only for the chance to meet Blake and Maggie! :)

I wanted more. I want to see more of these characters and more of the other characters. It was a great romance novel with just enough suspense.
