In the heart of the Deep South, the Executioner starts a new Civil War

In a grassy field in North Georgia, Mack Bolan pays tribute to the men who died at Chickamauga. For more than a century, the battlefields of the Civil War have been peaceful memorials, but on a lonely stretch of highway outside Atlanta, the one-man army known as the Executioner is about to open a new battle. His target is the Mafia, which has long used the Georgia highways to smuggle cigarettes, whiskey, and stolen electronics. Lately, something far more sinister has been creeping up from the South: heroin, by the truckload. Bolan is here to cut the connection.

To protect the innocent truckers hauling the Mafia goods, Bolan lets them drop their cargo before he destroys it. When the white powder fails to arrive at its destination, the mob comes after Bolan, and the highways of the South become a battleground.

Here we are, #27. Only 11 more to go and the entire 'War against the Mafia' portion of this series will be finished. That was the goal I began three years ago, and expect to completed by 2015.

There were some fabulous scenes in this book. In particular, the showdown between the infamous Mafia hitman known only as Domino was enjoyable. In fact, how Mack keeps one step ahead of Domino and slowly breaks him down was cleverly written, if not a little silly when you really think about it. I will not spoil those moments for the next reader.

I felt there was a seriously high content of corn in this book. There are entire chapters written in CB chat (Civilian Broadcast.) It was very annoying, so annoying in fact that I looked at the print date. 1976, and I thought, *yup, about the same time as 'Smokey and the Bandit' was in theaters*. However, after some quick fact checking, 'Smokey and the Bandit' wasn't released until the summer of 1977. Don Pendleton stands ahead of the curve once again.

I give this book 3-stars because it was average to the series. There are some great books in this series, and this isn't one of them. Dixie Convoy proved to be a fun read, just don't expect much more than that with #27.

"It's a blitzing, blazing trip through the high-speed world of fearless diesel jockeys and a mechanized Mafia. Bolan and the CB'ers create a convoy of retribution that turns the Dixie Corridor into a highway of carnage fo rthe Dixie mob." (from back cover)

It's Mack Bolan's one-man, open-war against the Mafia again, this time in the area in and around Dixie Corridor and into Atlanta, Georgia. Bolan is out to stop the movement of a billion dollars a year in stolen goods, drugs, and contraband where it is repackaged and sold in seemingly legitimate businesses. Bolan enlists the help of a trucker and his CB "good buddies", along with the usual sexy girl suspect. Great fun. Lots of action. But then, it's a Mack Bolan novel.

Monica Willyard says

The mob is alive and well in Atlanta. They're up to their usual tricks of smuggling and shipping drugs, guns, and stolen electronics and appliances. The Executioner decides it's time to put a stop to the party. Even though the mobsters import muscle from New York, they're about to find out what happens when the executioner fights with southern hospitality and style! :-)

For my first foray into this series I thought it was very good. I am considering continuing to read it

A good read! This series is a fun one to read. I like to read several of these and then read something else....coming back to this series for a few more.

An excellent men's adventure series from the 60s, 70's and 80's. The first 38 books are outstanding but then the series is taken over by a bunch of new writers writing under the name of the original creator and they take the series into a new direction I did not care for. The first 38 books are very recommended
