## **Hollow Crib B.J. Bourg**

It's November in southeast Louisiana and the only thing Detective Brandon Berger wants is to keep his anniversary promise to his wife. Then a mysterious death derails his plans. As he and his partner, Dawn Luke, investigate the case, the evidence trail leads them to the Magnolia Faith Church and its pastor, Father Isaac Stewart. But they are unable to prove anything because of the tightlipped parishioners, and the case turns cold. Further north, William Chandler takes his wife, Claire, and their infant daughter, Gracie, on a camping trip to the Skybald National Forest. The last time he was there, twenty-two years earlier, he watched his father die in a violent accident. He's returning to quietly sort through some personal demons, but when they arrive and find a peculiar stranger talking to his pit bull about blowing things up, he questions the logic behind returning to the scene of his youthful tragedy. Then William finds himself arrested for murder. He swears he's innocent, but the evidence against him is so damning, even Claire thinks he's guilty. The Magnolia Faith Church might be the key to helping William prove his innocence, but making the 251- mile connection could be deadly...

## From Reader Review Hollow Crib for online ebook

### **Amanda says**

I couldn't decide which story I was more excited about as I read from one chapter following one story line involving a small family's encounter with tragedy while camping in North Louisiana and the next chapter switching to the dedicated (but married to his work type) detective in southern Magnolia parish. The author did a great job keeping me invested in each story line that eventually intertwined in a way that I could not have anticipated as detective Berger's hard work puts all the pieces together. I could not put it down. I just had to keep going to see what happened next and how could this possibly come together. I was shocked! It did leave me wanting more. I hope there is a sequel. I would definitely recommend this book.

---

### **Al Stoess says**

Not bad. Not the best. I figured out what happened. Hard to believe it took so long to figure that the protagonist was not guilty - otherwise no story.

---

### **Susan Furlong says**

Intense scenes and complex characters make for a thrilling read. I highly recommend Hollow Crib.

### **Makayla says**

So going into this book, I wasn't sure if I was going to like it because the beginning was kinda slow and I tend to be the type that if I'm not hooked by the third or fourth chapter, I'm not gonna be hooked at all. That being said though, once I got around to the eighth or ninth chapter, I couldn't put it down!!!! (Hence me finishing the rest in about 2 hours lol). My favorite character (and in my opinion, the most dimensional and well-written in this book) was William Chandler. Throughout the book, I found myself feeling frustrated and angry and sad on his behalf (I'm not gonna lie, I'm still harboring some resentment against that Detective London guy) and when I got to the end, I felt his joy and pleasant disbelief at how his circumstances had changed. My only complaint was that I wasn't too crazy about how in detail the book would talk about types of knives and guns (I kinda just skimmed those parts lol).

...

As someone who can typically call what's gonna happen next in books/movies/tv shows, I was surprised to be surprised by the ending of the book! By the last chapter, I was practically jumping pages to find out what Meagan had confessed and if/how it would effect Chandler's innocence. Basically, the suspense was killing me and it took everything in me not to just jump to the end and find out what happened. All in all, I really enjoyed this book and would recommend it to anyone who enjoys mystery/suspense novels, especially ones that talk about courtroom trials/the criminal justice system.

**Christie Caraher says**

It was a little too tense and violent for me, even though I kept reading to see how it would all turn out.

---

**Jennifer Sons says**

Holy moly! What the actual hell?? That's my thoughts right now because I did NOT see that coming!

This book is amazing! So much suspense & mystery! Bj has left me wanting more & guessing from beginning to end! I didn't want it to stop or end. The author has the ability to take different story lines and completely intertwine them by the end of the book in a way like no other!! I can't wait to grab book #2 & dive in.

**Mary Ann says**

Poor William. I think the author made some mistakes in the story but it was good.

---

**Karen says**

He knows his stuff! Meet him through RWA, great presentation from him.
