This book although a science fiction makes into the list of funniest adventure story of all time in Bangla. Even my brother who hates reading books had finished this book in one sit up. It is, in fact, one of the funniest sci-fi adventurous novels in Bengali . Zafor Iqbal, the master of the Bangla sci-fi genre, wrote this book of adventure in such a way that while reading you will feel like you were with Tuki and Jha throughout the adventure. It is an adventure to the planets with two most idiots thieves in the history of human civilization. But they are not any ordinary thieves . They are certified thieves who graduated from the University of Theft. To make you laugh till your stomach ache there is a stupid robot called Roby with them throughout the journey. From a reliable secret source I have come to know whoever reads it once, he/she ends up reading it multiple times!

A book full of surprises and twist and turns. Superb humor, hilarious characters and amazing storytelling,

this book should be able to win your heart by the time you get to the third page! Also, I am not the only one who read the last page and jumped to the first page and read it again. Trust me, I asked many others if did that and the answer was "Oh Yes!! Did you too?"

A sci-fi comedy book with very good humor. It's a story about two thieves Tuki and Zaa who accidentally get on a Rocket while escaping from Police after a raid. That set a epic journey where they traveled different planet with their helper robot (which was already inside the rocket). It's an easy read and you will laugh reading their adventure. And the ending is really good encouraged to read it again. :p
