## John says

Scarlet Samurai part-3

---

## Etienne says

Not a fan of this Science-fiction Japaneses series. Nothing wrong, but just not my style and I think we lost a little of what Old Man Logan was in the first issues of this new collection.

---

## David Dalton says

I got into this whole Old Man Logan think late. Like with issue #25 or so. I read the Old Man Logan collection that started it all, but not this series. I plan to start reading the collections of the Old Man Logan series on my Kindle Fire, the first 3 Volumes are on sale for only \$1.99 (4 to 5 issues worth each).

This storyline was classic Logan, and features the return of Mariko (Logan's old love...who he killed years ago) as the Scarlet Samurai. I liked the art by Mike Deodato as well.

And finally I may be getting an answer to the question I have had since I got into this Old Man Logan series: Where is the Wolverine/Logan of our current time? If this Old Man Logan just woke up in Times Square (like the NBC TV show Blindspot) than where is our Logan? Well, this issue features a Marvel Legacy ad and it says "Where is Wolverine??" (and what is his startling secret?) and then highlights several Marvel comics with Confirmed Wolverine sightings. Like Captain America #697, Amazing Spider-Man #794, and Mighty Thor #703 for January, and a six other titles thru February and March.
