Morganna Cork has survived her first month in Puesta Del Sol. A month in which she discovers she's part of the Magick community filled with shifters, psychics, werewolves and individuals with myriad other powers.

Her estranged aunt, Aiofe, has returned to take control of the Magick Council, the Cliffside Inn, and the sacred stones that her cousin Maeve and she hold in their possession.

With the help of a mysterious magical historian, Morganna learns that she is at the center of this Magick battle and that Aiofe will stop at nothing to get her hands on an ancient family heirloom, a secret journal, and Morganna.

The romantic tension between Morganna Stone and werewolf pack leader, Callupo Stone, reaches its breaking point as the Cliffside Inn is under siege and they navigate their way through the betrayals and dangers of this war.

As they battle for control of the Inn, loyalties are tested and lives are lost. Morganna's survival hinges on finding out the dark family secret before Aiofe can.

## Avid Reader Amy's Reviews says

This book picks up where *To The Cliffside* left off. We follow Morganna and her friends as they seek out answers as to why Aunt Aiofe is after her and Maeve. You would think that being family Aiofe would be seeking to help them not hurt them. Obviously she has become power hungry. Seems that dear old Grandmother Siobhan Cork had a big secret that she was keeping. Turns out this is what Aiofe wants to get her hands on because she believes it can give her more power. Just what the crazy Aunt needs, more power, right? Morganna struggles through it all to find the secret before Aiofe does, even as her world starts to crumble around her.

Morganna becomes stronger emotionally in this book. Whether it is from all the hardships that she encounters in this book or what Callupo said to her, the change she makes is good. Callupo told her to try and be nice for a change. Stop being the victim and stop waiting for someone to save her. She needs to save herself and stop being a doormat. Which is true because she did tend to put herself in situations where she had to be rescued. Callupo on the other hand seems to be moodier in this book. He tries to avoid Morganna and his ever growing feeling for her. He's a leader. He believes that everyone will be resting on his shoulders and he's alone. By being involved with Morganna that means that he is putting her above all else and he can't risk it. What he doesn't realize is that as a leader he doesn't have to handle it all. He can get help and support from Morganna. I do have to say though I was happy that they finally got together. Sure it wasn't under the best circumstances but Finally!

I was shocked to find out who the traitor to the group was. That one blew my mind. I couldn't believe that this person actually turned everyone especially Morganna the way they did.

I have to say that the author wrote another book that sucked me in from the beginning and I was sad when it ended. Lawson writes a fast paced book that builds up to the climatic end. This being her second book I think that she did a fantastic job and is getting better with each one.

Overall thoughts are that I loved this book. It is a great series from an awesome indie author. There is yet another cliff hanger, I am starting to think they are associated with the title. :) Go grab a copy of this one and the first installment if you haven't already. I recommend this book to adults age 18+ due to sexual scenes and some violence.

I received this book courtesy of the author in exchange for an honest review.

Great follow up to Ms. Lawson's first book. The tale continues and is equally entertaining as the first book.

My only complaint is that I want more. Can't wait to read book 3 when it comes out.

Read my review on Paromantasy

In one sentence: This a hold-on-to-your-seat emotional thrill ride filled with laughter, tears, romance and non-stop action as Morganna and the gang race against time to uncover the family secret that can save their lives, while battling their hearts as they face love, loss and betrayal.

This book is amazing, with a capital A! I loved it and has done the impossible by being even better than it's five-fang predecessor - To The Cliffside. It takes everything we love from the first book - the characters, the action, the romance, the suspense, the mystery - and magnifies it to the umph degree. I cannot explain in words just how much this series has completely entertained me and continues to race through my mind as I try to guess where the characters are headed next.

Morganna Cork has grown since the last time we've seen her. Being thrust into this magical community, she is learning to cope with her magical abilities. With her crazed aunt Aiofe after her and her cousin Maude, she must be prepared for anything. Situations only get more complicated when they learn that Morganna holds the key to Aiofe's fascination and in turn winning this war - the problem is that they don't know why. Conleth has many of the answers they seek, but he wants something in return - Morganna. If having a crazed lunatic after her, and one of the most pivotal people who can help them hell-bent on making her his wasn't enough, she also has to deal with the fact that Callupo Stone is now her werewolf appointed bodyguard. He is just as impossible as usual, and the fact that he is getting sexier by the minute isn't helping things along.

With the world stacking up against her, she must figure out the secret to a past long forgotten, try to save her heart from being irrevocably broken and come to terms with the fact that many of the people she trust may be the ones that want her dead. When all hell has broken loose, will you be able to make the ultimate sacrifice to keep the ones you love safe? That is just what Morganna has to figure out before it's too late...

I love every aspect about this book. Past details from To the Cliffside intertwine with this this novel as the storyline unfolds and we see what Aiofe wants and what she will do to get it. Their is no end to the major shockers in this book. You are guaranteed to laugh, cry , scream, and, in the end, beg B. Jane Lawson for more of this amazing series.

Callupo Stone may be my favorite non-hero hero of all. Kind of a weird statement, but it is true. He is such a complex character and his exchanges with Morganna are always a treat to read. They are both so passionate in two totally different ways. He is strong, silent, brooding, kind of rude, and expects everyone to follow his orders. Morganna is spirited, funny, kind and free. She is happy doing the opposite of whatever Callupo orders and you just gotta love that. Together, they cause fireworks. The sexual tension between these two is through the roof and all I can say is...More Please!!

The side characters are just as unique and lovable. There is the usual crowd of Ralph - Cal's brother and Morganna's friend, who is equal part lovable and fearsome. Anya - the best friend - who is going through some growing up in this book as well. Niko - a potential opponent to Callupo - who is silent for most of this book, but whose brief appearances always make me smile. Ilana, who appears to be changing her spots from bitch of the year to just kind of bitchy. Mr. Henry, everyone's favorite old, charming and extremely powerful

Majick. I was so happy that he plays a major role in this books. The list goes on, but I just love this community of people and each time I pick up this series, I feel like I'm back, hanging out with a bunch of friends I haven't seen in a while....only true book lovers can truly understand what I mean.

There are some new additions as well: Conleth being the biggest. He is a peculiar thing filled with knowledge, sensual energy and this mystery surrounding him that is appealing. His exchanges with Morganna and the ever furious Cal was a great addition to this book. I cannot wait to find out what will happen in book 3.

If you haven't guessed by now - I Love This Series!! If you haven't read it yet, run out and buy it asap -you will not be disappointed. If you are a fan of the Charlaine Harris, HP Mallory, Jeaniene Frost, and Richelle Mead- then definitely check out the Morganna Cork Series!
