# Planet Ladder, Volume 2

*Yuri Narushima , Gabi Blumberg (Translator)*

## **Planet Ladder, Volume 2** Yuri Narushima , Gabi Blumberg (Translator)

Orphaned in a war she can't remember, Kaguya is happy with her adopted family. But chaos returns when a mysterious boy tells her of her past as a princess from another world. With her guardian, Kaguya sets out on a journey from world to world to claim her birthright. Courted by some, hunted by others, her destiny is feared by all, for it is her fate to decide which worlds will rule and which shall die.

## From Reader Review Planet Ladder, Volume 2 for online ebook

### Lord says

The story is more consistent than in the first volume, there's a feeling that it's actually going somewhere and that it will be fun along the way. It's still a quick, not very remarkable reading, but getting better.

---

### Vicky says

Planet Ladder is a quirky manga series, it has some really interesting concepts, some great characters, and a good mix of humor and seriousness.

The ending, however, failed for me. It got... weird, for lack of a better word.

---

### Jerry says

**The Good:** The great story that started in the first volume continues here, and is just as entertaining. The artwork and dialogue are on par with the previous entry in the series.

**The Bad:** Unfortunately, the makers also made this one a bit more edgy. Two scenes with Barbie-doll-style nudity, as well as a profanity or two, muddled things a bit.

**Conclusion:** Despite its problems, I enjoyed this second installment; now, let's hope the issues with this one don't foreshadow a downward spiral for this series.

---

### Lauren says

One of my favorite manga series.

---

### Lexie says

THE MAD PRINCE BECKONS ..

Sort of. Seeu makes a minor appearance at the beginning and he gets an appearance when we get some

backstory courtesy of Kagami meddling with Lagunahaan's coffin, but he's barely here.

I swear he's a hero in this story at some point.

Kaguya is saved by Bambi, a beautiful girl with silver hair and a penchant for lecturing. She explains to Kaguya that hey welcome to not your planet and this is where some of the translation breaks down because she keeps saying "different worlds" but they're really Parallel Earths I think.

Kaguya also gets to have a short heart to heart with Kagami, who's all sorts of confused but happy to see her and confirms Seeu is the hero we are looking for (also weirdo braid sage Meshe is a good guy).

So we get some backstory, some character connections, indications why Geos (the seventh world) SUCKS and an overview of the current power Dynamics being fought.

AND YET I'M AS CONFUSED AS KAGUYA. Keep it together Lexie you love this series it's not as bad as all that just keep reading
