Save Me Bella Scully

\*\*\*THIS IS A FULL LENGTH STANDALONE NOVEL WITH AN HEA\*\*\*

**Cal Gatlin is dangerous. Cal Gatlin hates me.**

**And now? Cal Gatlin is my stepbrother.**

I've been broken since Dad died. Crippled by pain and the secrets I keep. I'm supposed to be perfect—the good girl with the 5.0 GPA and a ticket to Harvard. The last thing I need is a sexy, dangerous, tattooed bad boy stalking me, flirting with me, and calling me *Sis* with a cheeky grin. Especially if that bad boy is my obsessive childhood bully. Cal Gatlin.

I hate him.

But now that we are forced together by our parents' marriage, our acts are breaking down. He's seeing the weak, imperfect side of me I've been terrified to show to anyone. And I'm discovering the pain beneath his cocky bad boy mask. Deep down, we're each both just as broken as the other.

Loving Cal Gatlin hurts. It's dangerous. It's reckless.

But maybe we can save each other.

3.5 stars for me.

This is the author's debut novel and, compared to other stepbrother romances, I didn't feel that this one was as good as the ones I've already read.

Natalie strives to be the perfect daughter, the perfect student, the perfect girl that everyone expects, while underneath it all, she is far from perfect.

Callum is the ultimate bad boy, always in trouble, and has a massively fearful reputation, but Nat is his weak spot. He's tormented her all her life but the truth is, he's been in love with her for years.

When their parents get married, Nat starts to see a different side to Cal, and he becomes the catalyst for her own change in behaviour and attitude because he sees the real Natalie. He knows her. Hidden truths about other people are also revealed as the story unfolds.

The reason I thought this novel wasn't as good as others in this genre is because some of the dialogue felt a bit repetitive and I think the story just needed more – perhaps more detail, more padding, more development. Cal's change in demeanour and their relationship was too quick for me. However, it did have moments that tugged on my heartstrings, and the author writes very good sexual chemistry between her characters. I'd be happy to read her next novel, of which a snippet was included in the back of Save Me, and I hope that she'll deliver more in the next one.

**If you like taboo stories you'll love this book!**

If you like taboo romances you'll love this book and if you can get over the fact that the step sibs parents were only married a short time and he has been in love with her forever you'll also love this book! Overall it was a pretty good book.

Save Me is a standalone Stepbrother romance by Bella Scully. The storyline was solid and well thought out. The twists and turns were fantastic and kept my attention from beginning to end. The characters had depth, emotion and chemistry. All in all a very solid book that I would recommend.

#### **A lot of potential**

This author has a lot of potential. I thought there were some really strong parts to the characters and some great scenes between them. With that said, there are some parts that need to be worked out and developed. There was a little too much cheese in those areas that read like a bad twilight movie. But the good parts were really good, that why I think there is so much potential. Overall the connection between Nat and Cal is great. I love how he comes to protect her.

Something I found kinda cheesy and eye rolling worth was the way the authorities treated Cal. It just did t seem realistic. And Nats mother? She was so dramatic and unrealistic it was awkward. Hose are the parts/characters (and some others, but I don't want to give too much away, nor dissuade readers from giving the book a try) that could have been developed more.

Her friend Jess is a little obnoxious. But I guess we all have one of those!

DNF

Yup. Nope

I don't know if this review contains spoilers, I didn't get far enough to know.

Natalie is the most beautiful and perfect girl in the world.

Boys tell her that.

**“ I think you're incredibly beautiful... and fucking sexy.”**

**“You have no idea what you do to men.”**

Actually, yes, yes she does.

**“ I was absolutely devastating this boy.”**

But she needs to be reminded. Often

**“Nat, you have no idea what you do to men... Anyone with a working cock would want you.”**

But actually, she knows.

**“He wants you, he wants you, he wants you, the voice said.”**

She's a self-absorbed little drama queen who is constantly slamming doors and locking herself in her bedroom refusing to speak to anyone. She's in constant fear of her stepbrother for god alone knows what reason, except of course when he touches her because then she's all-a-fucking-tingle.

**“I halted as Mom and James walked out of the kitchen, blissfully unaware that their daughter was being stalked by her potential murderer. Cal's smirk grew, and he crossed the room with wide strides. Please, God, let Mom bury me somewhere nice. “**

Her actions made me want to call her mean things no woman should ever be called (no matter how hard they're twerking along your last nerve), he's supposed to be this cocky bad boy but he's a stuttering tool and for my own mental health and my medication limit I am just fucking done.

I did not care for the MC or her mother. I really only liked Cal.

## **Princ3ss says**

I skimmed through the last half of this story. The bad boy that Cal was supposed to be just didn't ring true through the entire book. A community can come up with some crazy thing about people but the rumors about Cal were unfounded. I don't think the town seemed big enough for those type of rumors about him. He could have very well been a bad kid but that wasn't portrayed in the story. Then there was Natalie who argued with herself all through the first half of the book, it was strange. If it was done a few times I could have gone with it but everything her own thoughts came into play she was 'do it, no don't do it'. She also repeated herself too much, that annoyed me.

Cal and Natalie's relationship seemed forced. I don't think she saw Cal as anything other than a menace or someone to be afraid of until the argument in her bedroom. After that she was in like then in love, it didn't flow well. I honestly don't understand how she went from fearing that he would murder her to feeling safe in his arms, I think she would have had some residual wariness about someone you think is capable of murder but Natalie had no such reservations.

Cal told a lot that their parents were self absorbed and I don't know how Natalie didn't see that about her Mom, yes she was a busy kid but you're aware of how your Mom acts toward you. I didn't like her Mother because for the "outstanding" kid Natalie was her Mom didn't listen to anything she had to say. The point about Natalie being a drama queen was stated many times but her character didn't come across that way. She was the typical overachieving high school student. Her 'non-perfection' wasn't displayed either. I didn't see anything wrong with her, other than being told she was that way.

There were instances where I was wondering where they were, I couldn't get a mental picture of the surroundings or where the characters were. The writing could have been better, more descriptive. I managed to get through it, barely.

## **Ms. Ali Cat says**

Mmm Cal Gatlin, I'll have a dozen and keep them coming.

This is probably one of the most mature YA/NA books I've had. Great enjoyment to read. It's basically teen erotica and my nineteen year old sister is not old enough to read it yet. Hell, I might not be mature enough to read it.

But I do definitely love it.

This is the good girl gone crazy for a bad boy with a heart of gold. He also has a potty mouth with a tendency to say dirty, dirty things. And he has a reputation that only a girlfriend in love could make light of.

Oh and he has just become her brother but that is really only an issue for the sake of the whole stepbrother taboo genre, because I mean, really, getting it on with someone you are only related to by means of

association is how most people get dates. Truly, the taboo is dead to me and the formula is getting tired. Perhaps we should petition for a new taboo.

Some girls try to live up to the expectations of everyone they know, they all become bitter housewives that dive into the bottom of a bottle and passive aggressively crap on everyone they think has better. I know because I'm very closely related to one. Natalie Harlow has her future bitter existence ambitiously planned out and her application to Harvard is only the first step. What she doesn't have is the stomach to deal with her nemesis and tormentor of many years move into her house.

I must admit that watching Cal wind Nat up is what makes this book so beautiful. He really is the perfectly charming douche canoe with a heart. Even when he is behaving he is still dangerous and naughty. He's young enough to be my child but I would whole heartedly go cougar for a little one night of that sinful smexy.

He's eighteen so I am free and clear in all fifty states and most international countries.

Ok, what I would want to do with him is likely illegal in all those places too.

This is really a great read, Bella Scully has a fantastic voice, her characters are tangible, and her humor is out of the world. I can't wait to snatch up all her future books.

Here are some recommendations if you like this book:

### **Christine says**

I have to take a break from this one. It started out really good, but Cal behavior just changed a little too quickly for me. One minute Cal is a bully to Nat, the next he is the nicest guy.

I am not sure why Natalie was upset that Nate found himself someone else. I thought she would be happy since he was abusing her. The book felt out of place. Characters behaviors just did not make sense.

A must read step brother romance that you won't be able to stop reading. I read several books by this author in one weekend as I love her work and each book was addictive. I recommend all, and any, books by this author

#### **Good read**

This was a good read. Was 200+ pages and a full standalone. There was a lot of errors in the book. You will be able to connect to the characters. I would read other books by this author as well as as encourage others.

Overview. Natalie or aka Nat was the typical student in high school. Working hard, good grades, and popular. But her enemy, Cal, who is always in trouble and picking on her, will be her new step brother. She freaks and can't stand it. Cal loves that she will be his step sister. Cal keeps egging her on, while she is trying to be nice. That's boyfriend is jealous of her boyfriend Nate, but also knows that something bigger is wrong with Nate. Cal fights for Nat and slowly wins her heart and trust. There are several twists and turns in the story the push the boundaries of trust and saving between them.

## **Sarah Black says**

Cal, he's my new book boyfriend. Yes...I'm a crazy person who falls in love with characters from books, but we all know I'm not the only one. You're probably wondering why I want him so much, well apart from the fact of being drop dead gorgeous he's also sweet, protective and he can kick some serious ass with his anger issues.

**No**, he is not a violent person usually. He's just very protective of Nat.
