## Stumbling Into Love Aurora Rose Reynolds

Mackenzie Reed has officially been stood up. Not only has she wasted two years on Mr. *So Not Interested* but now she doesn't even have pizza and the Mets to keep her company. Then *he* walks into her life—more than six feet of rugged, hot stranger. Maybe, just for tonight, Mac can pretend to be a girl she's not. After all, she deserves a little no-strings fun...

As far as Wesley Porter is concerned, one night with Mackenzie isn't nearly enough. She's a mystery he wants to solve—if he can keep her from running for the door every time they touch. There's obviously some serious chemistry between them, so why is she fighting it?

As one sexy hookup turns into another (and another), Wesley is determined to prove they were made for each other. But Mac has been hurt before, and she refuses to fall for this sexy, ridiculously perfect guy. In fact, she has every intention of fighting it...unless he can convince her otherwise.

## Carvanz says

Mac is recovering from the loss of hope after learning the man she's best friends with and has had a huge crush on for two years is now engaged to another woman. When her blind date stands her up she meets Wesley. They hit it off and are soon enjoying a one night stand with Mac running out the next morning. She suffers from some insecurities and it's better to cut and run than wait around until her sexy ONS realizes the woman he met the night before isn't the real Mackenzie.

Wesley is immediately attracted to Mac but when she keeps running he can't help but wonder what it is about him that she doesn't like. Eventually he earns the chance to take things to the next level with her and he couldn't be happier. He just has to make her see that this is the real deal for him while making her fall in love with him along the way.

I absolutely loved this couple. Their relationship was fun and easy but overshadowed with something from Wesley's past that he can't talk about. Initially, he worried that she would run again and yet it was his actions that pushed her away.

This was one of those feel good reads that have just enough angst to keep the story going but not enough to make you want to throw your Kindle at the wall. It may sound like a lot of push and pull but it that was just a small part of the story. The secondary characters added dimension to the book and I loved that we not only got to see Fawn and Levi from book one of the Fluke My Life series, we got a tease of what's to come with Libby.

I highly recommend this for anyone looking for an easy read between darker, heavier stories. If you enjoy your heroes all possessive alpha and protective as well, your heroines sweet but sassy and not a doormat without being harsh, this is the perfect book for you.

This is an honest review of an advanced copy provided by NetGalley and Montlake.

**4 stars!**

*Stumbling Into Love* is the second book in Aurora Rose Reynold's Fluke My Life series, and I enjoyed it even more than the first! This series focuses on the three Reed sisters- Fawn, Mac, and Libby. This was Mac's book. Mac is the tomboy of the group. She's fun, easy going, and I really liked her! She has spent the last few years of her life wasted by crushing on an unavailable man. Now she's ready to get back out there.

She meets Wes at a bar after being stood up and sparks fly. What she doesn't know, is that he's her sister's bf's parter. ??Wes is a great guy. The night Mac and Wes share together is full of chemistry and unforgettable for the both of them. It just takes Mac a little time to get there... Of course Wes feels that 'boom' with her and isn't quick to let her go. I love that all consuming feeling ARR is known to write about. It always makes me happy to see the boom.

"She's exactly what I didn't know I was looking for... I know without a doubt she was made just for me. Now I just need to convince her that I was made for her, too."

I listened to the audio book of this story and the narrators (Carly Robins and Alexander Cendese) did a nice job voicing it. It was an easy, quick listen. I love ARR's books because they are usually light, fun, with just a bit of emotion, and leave me with a smile on my face. After the build up in this one, I can't wait to read Libby's next!

*Stumbling Into Love* is book 2 in the *Fluke My Life* series by Aurora Rose Reynolds, and is about the 2nd Reed sister, Mackenzie. Mac is stood up by a blind date. While she is nursing her sorrows, tall, dark and handsome walks into the bar. Wesley sees Mackenzie sitting by herself, and is automatically drawn to her. A night of hot sex, and Wesley is screaming "MINE", while Mackenzie is running for the hills. And so it begins....

I really enjoyed this is a quick and easy read. Both Mackenzie and Wesley were very likable, although Mackenzie did annoy me at times. I adored super sweet Wesley, but of course, I wanted to smack him a few times too. The sex scenes were hot, especially with Wesley's dirty talk. There are a few surprises that I didn't expect, which kept me turning the pages. The epilogue was perfect and left me wanting more.

The side characters were very entertaining, especially the Reed clan. There is also a hint of the romance in the third book with Libby, which I am looking forward to reading.

I am a big fan of Aurora Rose Reynolds and even though the previous book in this series was not my favorite of hers, I enjoyed it non the less. So of course I had to read this second one as well, and I am glad to say, that I loved it more than I did book 1.

I actually really liked MacKenzie (the heroine) in the previous book and that didn't change. She is one of the three sisters that this series is about. For me it's always a bit of a struggle to appreciate the heroines in a

book, and the fact that I liked MacKenzie so much, is one of the reasons this book was a succes for me.

That's not to say that Wesley was a bad hero....he wasn't. He was quite **HOT** to be honest and I was huge fan of his dirty talk :P

These two definitely had **chemistry** !! For me this book reminded me a bit more of the "Until" series, which was fine by me, because I love that series !!!

If anyone knows how to write the HOT ALPHA'S it's Aurora Rose Reynolds.

I am very much looking forward to the next book of the last sister ;)

### **4 Don't Run! Stars**

Mackenzie Reed has always been more comfortable around men than women. Unfortunately for Mac, most of the men she hangs out with consider her one of the guys, even though she wishes a few of them would dig a little deeper and realize she does indeed have girl parts. When she gets stood up by her blind date, Mac decides she can either head home for another night in front of the TV or flirt a little with the hottie that just walked into the bar. Like the intelligent sex starved woman she is, Mac picks the hottie.

Wesley Porter finds himself attracted to the beautiful red head across the bar from the moment he lays eyes on her. After a couple of hours getting to know each other, Wesley can't believe his luck when Mac agrees to come home with him. What he doesn't expect is the disappearing act she pulls the next morning.

Luckily for Wesley, fate has other ideas about keeping these two apart.

*I don't know if I want to curl myself up against his chest or kick him in the shin. Who am I kidding? I definitely want to do both.*

The *Fluke My Life* series by Aurora Rose Reynolds continues to be a fun and frothy bit of goodness. There's a little build up for Mac and Wesley in the last book and I couldn't be happier with the way their story played out.

I have to be honest and say I was worried at first about how I was going to feel about Mac as the story moved on. In the beginning I wanted to smack some sense into her for avoiding anything serious with Wesley. I mean, come on?

As the story progressed and her vulnerabilities became more obvious, I enjoyed how she started opening up to the idea of Wesley in her life, regardless of her insecurities. Wesley's almost too good to be true, but those few and far between asshole moments lent him the believability I needed.

*Stumbling Into Love* was just the easy going bit of fun I needed. The Reed sisters and their men have yet to disappoint and I can't wait for Olivia and her pizza making fireman to tell their tale.

Full disclosure, I didn't like the previous book in this series. I actually debated on requesting this arc because I was so nervous about the story but in the end the fact that it was ARR, one of my favorite authors, gave me the courage to just dive right in.

I'm really glad I didn't let my nervousness stop me from reading this because I ended up thoroughly enjoying Mackenzie and Wesley. Mac was a great heroine that I quickly became a fan of. I loved that she was so comfortable being who she wanted to be and despite a few moments where she had hopes of being a little more girly. It was fun to read about her so at ease with Wesley and it made me pay a lot more attention to the chemistry between them, which ended up being my favorite part of this book.

Wesley was more of mystery than Mac was and wanting to know more about his character had me captivated. We didn't get to learn too much of his past until the end but I liked that the not knowing added such an intrigue to the story.

Overall, this book took me back to the old ARR stories and reminded me why she's one the first authors I recommend whenever someone is looking for a new-to-them author to read. The story was well paced,

intriguing, and had characters that were very easy to like. I'm already dying to get the next book in the series and can't wait to see how it turns out.

Sweet!! This is what I all the softer side of Aurora Rose Reynold. The characters aren't as over the top as I'm used too, but this was a satisfying read. If you're into men in uniforms and quirky heroines, this might be your jam.

The main characters aren't as over the top as previous books by this author. The storyline is cute. Mac takes her sister's advice and decides to dress up for a night of fun, which is the complete opposite of her general personality. She meets a handsome stranger and has a night of steamy passion. Little do they know, Wesley is her soon to be brother in law's partner.

This is one of my favorite tropes - BABIES!!!! Thouth there's a lot of back of forth in this one. Mac is all over the place and takes a while to see what's right in front in front. Luckily, Wes is deteremined and doesn't give up.

All in all, it was a cute story written by an amazing author. Aurora Rose Reynold is in my Top 10 of Favorite Authors. If she writes it, I'll read it.

### **Carol [Goodreads Addict] says**

Stumbling Into Love is book two in the Fluke My Life series by Aurora Rose Reynolds. I won this book in a Goodreads Giveaway and have been excited to finally read it. It's my second book by this author.

MacKenzie Reed has spent two years crushing on her friend Edward, only finally accepting that he would never see her as more than his good friend. So she finally decided to go on a date. Her sister dressed her and did her hair and make up. She agrees she looks beautiful but she doesn't look like herself. She is usually in a tshirt and jeans and rarely wears makeup. But her date didn't show up. She was stood up. So, she'll have another drink, then call it a night. But then HE walks in, the hottest man she has ever seen. And when their eyes met, she could swear she felt it all the way across the bar. When he sat next to her, she was a nervous

wreck. But two hours later, it was evident the attraction was felt by both so for the first time ever, she is going to have a one night stand.

After a one night stand, though, there is always that dreaded morning after. Should she sneak out? She has convinced herself that if he knew what she was really like, a tom-boy of sorts, he would not have been as attracted to her. So Mac runs. Only as she glanced out of the window of the subway, she could swear she saw him running towards the train.

Wesley Jameson can't believe someone actually stood this woman up. Another man's stupidity, though, is his good luck. He really likes this woman. And their night together was unforgettable. Until she ran. There is no way that this is going to be a one night thing. He wants to get to know Mackenzie. It just might take him a little time to find her so that he can.

***“I don't know if I want to curl myself up against his chest or kick him in the shin. Who am I kidding? I definitely want to do both.”***

Wesley and Mac get off to a bit of a rocky start. But Wesley is determined to convince her to see where this goes. He can't believe how possessive he already feels about her. She is a massage therapist and the thought of her putting her hands on other men makes him crazy. If he wants to win her over, though, he's just going to have to calm down.

***“I remind myself that she's not mine. That still doesn't stop the caveman in my head from growling. Mine.”***

A surprise connection throws them together yet again. Wesley's got his work cut out for him convincing Mac to give them a chance. And Mac just can't accept that this man is really interested in her, the REAL her.

***“She's exactly what I didn't know I was looking for.”***

***I know without a doubt she was made just for me. Now I just need to convince her that I was made for her, too.”***

This was a cute, very hot story. Wesley is about as alpha as a guy can be. I loved how he got all possessive of her. And even with all of Mac's doubt, she really did like it. I do have to admit, though, that this author's writing style took some getting used to. It took away from the story a bit for me. Still, it was a sweet, hot, fun little book and I did enjoy it. I especially enjoyed how the author gave us glimpses into their future so when you finish the book, you really feel like you know how their lives worked out.

4 Stars!

Mackenzie Reed is a massage therapist in New York. She grew up in Long Island & is the oldest of three sisters. She's had a crush that wasn't returned, and is going on her first date in two years. She's at the restaurant, & finally realizes she's been stood up. She's about to leave when a sexy stranger offers to buy her a drink. This man is absolutely beautiful, & Mackenzie decides since she's all dolled up, she's going to go for it. She has an amazing night with Wesley, and then leaves his apartment thinking she'll never see him again.

Wesley Porter is a detective with the NYPD. After an unforgettable one night stand, he's desperate to find his mystery woman, & explore their crazy chemistry. He finds her only to continue to lose her. She's always running and fighting what's between them.

Mackenzie is a tomboy who loves baseball. She's always felt like one of the guys. She can't believe this great guy would be so into her. She thought he was too good to be true, but soon learns he's genuine, and wants more with her.

I really enjoyed this book & love this series! Each one is about a different sister, & we get more of the first couple in this book. I can't wait for Libby's book up next.

-I have never wanted another woman the way I want her.

-“Since the second I saw you, I knew that I wanted you.”

-I knew that there was something about you that I had to have.

-“You make me want more.”

**There is a six-foot-two gorgeous, giant man taking up my every waking thought.**

This was a nice reading. I enjoyed their sweet journey and their HEA. It was an easy book with sweet and

hot moments and a lot of Os on the process. I love this author and her books so no surprise here but this one was just an ok story. It didn't "WOW" me you know? I think I'm a little weird lately!???

**"I love you because you love me just the way I am. I love you because you make me feel special, because you make me laugh, you make my soul happy . . . and because you give me really great orgasms."**

I loved the cover and some of the quotes in the book so I'll give you some.♥????

**Until I met her, I had never experienced possessiveness before. I had never understood the need to claim someone, to mark or brand them. Yet that is exactly what I want to do with her.**

Wesley was an usual ARR's possessive aloha male so when he found his woman his instinct took over him. But even though Mackenzie liked it she didn't go with the flow. I mean "HELLO" no surprise there!♥???

**I know without a doubt she was made just for me. Now I just need to convince her that I was made for her, too.**

Yeah he convinced her with some great Os and by being the sweetest man. ????

**"This is way more than just sex. I know I can't keep my hands off you when you're close, but I also can't keep my mind off you when you're gone."**

And is Antonio and Libby's book next????👉???

**Eve Recinella (Between The Bookends) says**

I don't really have much to say about this one. I enjoyed it a lot. After reading a couple books heavy on angst and emotion it was nice to dive into a simple sweet typical ARR fluffy read. It was well written and well paced. The plot was engaging and kept me turning the pages. The sex scenes were hot and plentiful. There really wasn't very much angst and no OW/OM drama. There was a great cast of secondary characters. I can't wait to read about Libby (and I assume Antonio) and both main characters were very likable. Westley was your typical ARR hero. Alpha. Hot. Possessive. He had a few shit for brains moments but he was quick to apologize and make things right. Mackenzie was slightly annoying to begin with. I didn't really understand her reluctance with Westley. That said, I warmed up to her pretty quickly. Last, it was all wrapped up in a super sweet ending. All in all, this was a nice way to spend a few rainy hours, and yours truly is giving this one two thumbs up.

Yes! I did it! I finished this book!

I liked it better than the 1st one.

But storylines with unplanned pregnancy is not quite my cuppa in general...

Cute epilogue!

**?Tonya? says**

Aurora Rose Reynolds knows alphas. She didn't disappoint with Wesley at all.

**HERO~** Wesley. Hot, alpha police officer. He knew Mac was something special the moment he met her. I love that he was as patient as he could be, especially when Mac pushed his limits. He never truly could get her out of his mind.

**HEROINE~** Mac was a little tougher for me to warm up to. I'm not crazy about a lot of pushing away. She had been burned in the past so understandably, she was apprehensive of trusting Wesley. She wanted to. I was so happy when she finally gave in to her feelings.

**SEXUAL HISTORY~** Neither were virgins but neither had been with anyone in a while. Thankfully, their sexual history was not harped on

**OM/OW DRAMA ~** None - a guy Mac had crushed on was her friend but once she met Wesley and felt so much for him, she realized she never really cared for her friend like that.

**VIOLENCE** No violence

**STEAM** Steamy

**SAFETY** Safe-neither were with others after they meet

**ENDING~** Great ending with a good epilogue.

I'm a huge fan of Aurora Rose Reynolds and her books are always at the top of my reading list. She's an exquisite storyteller and I love so much her steamy, stimulating and emotionally charged stories full of heart. *Stumbling Into Love* was no exception and I can't wait to read the next in the FML series.
