TMI Mom: Oversharing My Life Heather Davis

“TMI Mom is LOLZOMG.

From scorching her hoo-hah with jalapeños to attempting Carmen Electra’s Aerobic Striptease in torn sweats and tube socks to her frustrated desire to pour tequila on her cereal when her kids say, ‘I’m boooooooooored!’, Heather Davis serves up hilarious tales of family-life insanity that are never mean (except when skewering herself) and never leave the reader screaming, ‘I’m boooooooooored!’ TMI Mom FTW!”
— Linda Erin Keenan, author of *Suburgatory*

Ever wished you could say what you were really thinking?

TMI Mom Heather Davis does just that. With her trademark dry wit and knack for storytelling, TMI Mom goes where no mom has been (at least in the pages of a book), with stories about the crazy things that can happen — in the minivan, the bedroom, and out in the big, bad world

Witty, funny writing that will have you rolling in the floor laughing! The antics of this suburban family and clever writing style will bring a smile to your face! Definitely a must read! Can't wait for the next book!

Michelle says

Overall I found the life and antics of Heather Davis to be pretty damn funny and so close to my life that it's not funny. So many of the stories I could relate to especially the "Not being able to go to the bathroom by myself" stories.

Peg says

This book is hysterical. Don't pass on this one.

Heather Davis is a great storyteller. She invites her readers into her home and shares one brutally honest unfiltered story after another until she has her readers laughing.

Warning-This is not a book to read in public; and certainly not while eating or drinking. You may be able to quiet your laughter with silent shaking and vibrating for awhile, but sooner or later a nice big belly laugh is going to come bursting out.

Heather tells with brave honesty about being a Mother. And even though you may cringe, you'll also laugh at her hysterical confessions and outlandish antics. But her message is clear, it's okay to be imperfect (we all are anyway) and to laugh at yourself. In fact it's healthy.

Heather Davis is one funny lady and I'm so happy I found her. I highly recommend picking up her book! You won't be disappointed!

WARNING!!! If you read in your marital bed and plan to stay in that marital bed, do NOT read this book in that bed. I laughed/giggled so hard page after page that it interrupted my sleeping husband. He told me that his pillow was not for wiping tears of laughter and if I wanted to giggle to go to another room. The laughter wasn't just at the author, but with the author. Stories and adventures that all of mothers and wives can relate too. Excellent read!!!

Jennifer McMurrain says

I've been a big fan of TMI Mom's blog Minivan Momma so I snatched this book up as quickly as possible. I was a little concerned that it would be the same material from her blog, but it wasn't. Not only was it new, it was snort laugh funny new. I highly recommend this book to anyone who is looking for a good laugh, especially us Mommas who have "been there, done that."

Malena Lott says

Can't wait to see what readers think of TMI Mom Heather Davis and her debut "Oversharing My Life". She tells it like it is and lays it all out on the line. My husband even picked it up one day and I heard him laughing from the other room. I think I snickered on each page. As a busy mom, I appreciate that these short essays can be read in little breaks such as when I'm in the carpool line. I look forward to the rest of Heather's TMI Mom series!

Sarah White says

Heather Davis is a funny momma just trying to get by in this crazy world. She'd like nothing more than to be able to hit the snooze button indefinitely, except maybe to pee alone. This collection of essays really does give you a little too much insight into live in the Davis household, but for the most part you'll be laughing and seeing some of your family in these pages.

Melody says

Very funny. I had to contain my laughter so I didn't wake up my husband. lol

Gina says

Hilarious and honest take on being a wife, momma, and woman. Davis writes much like she talks: sweet and frank. Her collection of essays is an easy read-most unbelievable enough to have to reread and giggle again.

I enjoyed this book.

received and advanced digital copy. all opinions are my own.

Nova says

I thought this book was very funny. I think I laughed at just about every page of it. The way the chapters are written, you can read one or two at a time and still finish the book pretty quickly. I think the title is very

appropriate!

I love what is written on the back of the book: "Ever wished you could say what you were really thinking?" With this book, the author does just that. Will definitely have to read more of her works!

Alyssa Foresman says

The Minivan Momma, Heather Davis, confesses her family's priceless, hysterical day to day adventures in TMI Mom: Oversharing My Life. This book is must read, hard to put down, wrap me in a blanket, do not disturb, honey you better order take out for dinner book. You'll find yourself saying, "Thank God, it isn't just me." I highly recommend all of her books. They never disappoint.

Traci Lee says

This book is hilarious! I read it today. Seriously. I couldn't put it down. I love the dry humor and the quick chapters. And perhaps I am a bit more scared to have children now....

Ericka says

I really enjoy reading about womens' lives which are similar to mine in some respect. I'm beginning to think that CPS has made our kids smarter than us. I never even thought of pulling half the stuff these kids pull today, even the girls, but it does make for funny reading. Heather Davis could be my long lost twin. She finds herself in so many similar situations, but she's got a good-natured hubby to help her out and she gets lucky in some of the funniest ways. Definitely worth a re-read.

Janine says

This is a must read and truly hilarious. For anyone who would love to be a fly on the wall in the "Oversharing" that the author does brilliantly here of her family's daily life, you will so not be disappointed reading this wickedly funny book. The tales were so relatable for wives and mothers everyone, plus you will truly laugh your head off. I promise you will more then enjoy this book!!

Katy Brandes says

Heather seems like the kind of self-deprecating person who can share too much (hence, the TMI) without really doing so and invite you to laugh along with her and at yourself at the same time. Her vignettes are fun - I look forward to reading more from her.
