## Unwritten & Underwater Amanda M. Lee

Avery Shaw is living the dream ... kind of.

She's officially moved to her dream house and her boyfriend Eliot Kane is making her host a housewarming party to show off the new digs to her family. All is going well – other than the endless arguments over food and hiding from Avery's family, of course – until one of Avery's enemies comes calling.

Avery's former boyfriend Jake Farrell broke up with Cara Carpenter weeks before but she's still stalking him ... and Avery in the process. When Cara turns up dead at a high-profile event, not only is Jake a suspect, but Avery and Eliot are, too.

The Michigan State Police wrestle the investigation from Jake, promptly turning Avery from the hunter to the hunted. The state police investigator assigned to the case is all up in Avery's business – and Avery is cracking under the pressure even as she insists on covering the case, much to almost everybody's chagrin. From the stress associated with the new house, Grandpa's constant naked visits to the pool, and Eliot's insistence that Avery own up to something illegal, things are starting to get tense.

Avery is on her heels for a bit before starting to put the pieces together. When the truth comes out, though, the answers are welcome but the danger is not.

Can Avery survive to irritate everyone another day? Or will Michigan's favorite reporter finally succumb to a mouth she can't quite seem to control?

OMG thank you thank you for killing off Cara I couldn't stand her and I totally agree with Avery she needs to pick out Jakes new girlfriend thats really the only way he is ever going to find someone lol.

Eliot is a man with the patience of a saint and I also love that he can eventually admit when he is wrong about some things to personally I think he is totally wrong with the Fawn thing and he should have fired her long ago but hopefully he will soon cause that bimbo is just a trouble maker.

A really great mystery I didn't pick the killer that was a nice spin and I love grandpa he is just awesome.

#### **Avery is my spirit animal**

I love Avery. But more than that I love Eli. I love how he lets her be herself while not smothering her. I had to stop reading another series by this author for the fact of the boyfriend being a control sissy. But onto this book... her grandfather makes me giggle.. see all you have to do is not mind that he drives over to your house naked to swim and he'll stop. I'm not sad The person who died in this book died... I'm sad she was asleep for it.. ok that was harsh... but I am glad Avery found Jake someone who is amazing. Excited for them to all hang out!!

#### **Great Series**

I really like this series. I spend a lot of time laughing out loud. The characters are great and funny. Your main character Avery is the best, with her sarcasm, and her attitude. She kept me interested throughout the story. I hope you are writing more books for this series. Please hurry with book 12 asap. Thank you for great writing.

#### **Loved this one.**

Thought it was great that Avery met a female with her interests. Hope to see that work in the direction it's going. Another great read and enjoyed the grandfather antics. Have already downloaded the next book.

### **Murder at the aquarium.**

Avery, Jake, and Eliot find the dead body of Jake's last girlfriend floating in the soon to open aquarium when checking out security cameras that had failed. State police investigation is focusing on the trio, to bad they didn't do it. Now Avery must clear their names by finding the real killer. I didn't know who the killer was until the end. Read them all in a week wish there were more.

### **Mayhem**

I think the stories just keep getting better. I love the way Avery isn't afraid to take down anyone, including the state police. She has an interesting sidekick this go-round , that provides a lot of laughs . She manages to solve the case, save the day, grow as a person, and bring absolute mayhem to those around her.

## **Starla says**

Another awesome book by Amanda M. Lee. Avery is a gifted investigative reporter who has a mouth on her. Because of her mouthy way of communicating and her over zealous self worth she is a hysterical character to read. She always solves her mystery and beats the other reporters out of stories while getting into trouble in more ways than you can imagine. She doesn't like people and when you see her view point on the people she has to deal with you can completely understand and even agree with her. A must read but read the other stories before this one so you can appreciate the relationship dynamics.

### **Grandpa gets involved**

Avery and Elliot have moved into their new home and everything is going great apart that is for Elliots insistence on throwing a house party. So starts declared Avery Shaw book, always a pleasure to read with a lot of snarky one liners and a decent murder mystery to solve. The author always forces good job of concealing who the killer is until the last chapter which keeps the books interesting and Avery herself, she's definitely one of a kind. Added bonus we get to see a lot more of grandpa in this book and I'm boot just talking about the naked swimming.

### **Avery is always right**

I don't get why they always doubt Avery because she is always right. I love Avery and all her sarcasm. Nobody is safe when Avery starts looking into something. She digs until she gets the truth. I really had the suspect narrowed down to two people and this time Ms. Lee got me. I was wrong on who it was was. Great job on this book, I was thoroughly entertained. I look forward to the next Avery book.

#### **She's Baaaaaaaack!!**

Avery Shaw is the most awesome character in any book I've ever read!! She's intelligent, intuitive, tenacious, & has the most wicked sense of humor!! She & BF Elliot have the best relationship - he gets her & more importantly allows her to be herself, & she gets him too! Ex-boyfriend & sheriff, Jake, is a great supporting character. While there wasn't much interaction with Tad the tool, we get to see more (heehee!) of Avery's grandpa in this book. We can definitely tell where Avery gets her wackiness. The plot is entertaining & enjoyable as we ride along with Avery as she tries to solve the mystery & find the murderer before the police. I have never laughed so much & so hard! I will admit I was very surprised by the conclusion. Never saw it coming. My one wish - to see Avery acting out Star Wars with shark mittens!!! That has to be hysterical!

#### **Avery is everything I wish I could be and so much more!**

Great addition to the series. I love all Amanda M Lee's series, but Avery is my favorite. Her quirkiness and her brashness is hysterical and the quips between her and, well everyone, are pure gold! I do love my fellow snarky girls.

#### **Another Winner from Lee**

Seriously, can this writer do no wrong? I love all of her series. Each time I read a new release I change which series is my favourite.

Snark, a fun mystery, great characters...what's no to love? And thank you for more Grandpa!!!! Do yourself a favor and read these books. Putting them on kindle unlimited is the cherry on the sundae.

#### **Avery Shaw is the best....**

Love snark and humor? Then Amanda M Lee is the author for you. Unwritten and Underwater is one of her best Avery Shaw books yet. What happens when Elliott, Jake, and Avery are suspected if murder? Humor,

love triangles, snark, mystery and baked grandpa. A must read for anyone looking for a laugh.

#### **Avery Shaw book 11, a winner**

Just finished book 11, loved it. Laughed, smirked, just sad That I finished it. Worst thing about it is now I have to wait for book 12.

Wonderful characters, loved Grandpa. Great dialogue. If you have not read any of Avery series I recommend starting with book one, that way you see her grow and mature, well continuous process.

### **Carla says**

#### **Avery Shaw**

Avery Shaw she is strong willed, sassy, has a big mouth, is never wrong and I love her character. I read all 11 books in succession. Laughed through every book and enjoyed each book. Thank you for the series but please don't stop the series here. I want to see Jake date the lady Avery has chosen for him.
