## **Waking Up Naked Kim Dare**

Carl has a plan. After months spent staring at Miles Kavanagh and admiring him from afar, he's finally going to do something about his crush on his boss. An office party provides Carl with the perfect opportunity to make his move on the older man. All he needs to do now is get a bit of Dutch courage inside him. Or maybe a lot of Dutch courage...

Falling asleep in his boss's bed might have been part of Carl's plan—but waking up naked in that bed the following morning, with no memory of how he came to be that way, really wasn't on his agenda. Could he really have forgotten one of the most important nights of his life?

Communication is everything. Truer words were never spoken. 1/2 of this one could have been solved in about 5 minutes with dialogue. Still that doesn't mean I didn't enjoy the squirming. I did like how in control Carl was at work - made more sense to me than the 1st book where the sub got all sorts of wonky the minute he became a submissive. Great sex, fun D/s, nothing to complain about here. Not deep - but addictive anyway!

I really enjoyed this. Carl was feisty as hell!

I liked it. The bdsm was light and kinda sweet. I especially loved Carl's confusion and how persistent he was. Good read.

#### **2015 Re-read:**

In some ways Miles is my favourite type of Dom. He's easy-going and approachable and clearly has a lot of fun. He's not stuck-up, not mired in protocols and formalistic shows of respect; I get the feeling he doesn't need any of that to feel secure in his dominance. Very appealing to me. And he is far from infallible, too.

Overall, the pair of them together feels wonderfully normal, like people just being people. I can picture them being real – and it's glorious.

Really, really like this story.

#### **2012 Review:**

Sweetness!

Okay, this was a little different yet again, but so far the books in this series have amazing tension arcs to them and they differ from one another in terms of personalities, domination style and theme for said tension arc.

Yep, it was good. Absolutely. Miles turned out to be the most easy-going Dom I've ever read about, complete with a huge sense of humour, all of which he obviously needs since Carl, quite frankly, is on the defiant, disrespectful side. Not in a rebelling way, but in a way that makes me think of, well, non-submission. Since it appeared to work for Miles, that's fine, although the result for me was that I liked Miles much more than Carl.

But it was sweet. :3 Good story!

I am a lil wary about the next one, since the Dom there is apparently a hard-ass and pretty harsh. The upcoming sub... I am interested in him. He seems painfully shy so far, and that could make for a very interesting combination.

All I really hope is that we have love again by the end of the book, instead of just a good head-start into that direction. :3 The other volumes up to now have been very good for that. <3

I adore all of Kim's books but this one is kinda special. I smilled all the way through reading it. Carl was so sweet, very unsure of himself and Miles, the strong, self sure Dom was, in his own way, as unsure as Carl. I loved the perfect ending, just wish it was twice as long, I'd certainly love to read more of these two in another book.

### **Serena Yates says**

Like the first book in the series (Sealing the Deal), Waking up Naked is an interesting D/s story which is more about the relationship between an experienced Dom and a virginal sub than hardcore BDSM action. This allows for a lighter tone than you find in many BDSM stories, and even some genuine laughter. Both from me, because parts of the story and observations were really funny, and from the characters themselves. I love it when the sex is fun, and there was quite a bit of that here.

Carl is so inexperienced it isn't even funny. A virgin on all fronts, all he knows is that he wants to be Miles's sub. Waking up naked in the man's bed should be a dream come true – except it develops into a absolute nightmare when he cannot remember a single thing of what happened the previous evening or night. Miles believes it is a matter of trust and won't let him get closer – almost destroying Carl. When he finally manages to explain why the memory (or lack of it) is so important, the one obstacle between them is removed. But let me tell you, it was like watching someone pull teeth!

Miles thinks he knows it all – and is more than disappointed in Carl's lack of trust. By the time he figures out what the real issue is, because Carl yells the truth at him in his desperation, he is also big enough of a man to admit that not understanding the issue was partly his fault. He had no clue what Carl was thinking. Once he knows what's wrong he sets about fixing the situation. That's when the story goes from simmering to really hot!

This is a great exploration of the mind of the inexperienced sub and what happens when he meets an experienced (but still sometimes clueless) Dom. Sparked by the physical attraction between the two

characters, the actual relationship goes much deeper.

Recommended for everyone who likes Kim Dare stories, enjoys trying to puzzle out interpersonal mysteries, and likes a sense of humor peeking in – during sex as well as the odd BDSM scene. This story is a very interesting mix of all three of the above.

Light, fluffy, and quick with a side of toppy bottom.

### **Katrina Passick Lumsden says**

I read the entire *Sex Sells* series, and wasn't very impressed with any of them, so I'm just going to write one review for all four.

#1 - *Sealing the Deal* - while I found this one to be probably the most interesting of the four, it still gave me the impression of being misleading. Hudson is supposedly an expert Dom, yet he fails, on several occasions, to accurately read Toby's body language. He also fails to listen to Toby's subtle cues, then becomes angry when he realizes Toby was too overwhelmed by everything that was going on to enter into a binding contract. The very idea that a Dom would even *suggest* having a potential submissive sign a contract while there was sexual contact occurring merely reinforced the idea that Hudson was not a competent master.

#2 - *Waking Up Naked* - Again with the "Doms who are bad at their jobs" thing. Carl is new to everything, including sex. He's unsure, off balance, and insecure, yet Miles, again a supposed expert Dom, fails him on so many levels, it's actually quite sad. He makes it a rule that he and Carl won't spend a night together until Carl can trust him, and he can trust that Carl won't run off in the middle of the night. So how does Miles build trust? Well, he gives Carl a scene (only Carl's second BDSM scene), then takes his virginity...then leaves. Yup. No after care whatsoever. Because fuck Carl, I guess.

#3 - *Learning the Ropes* - Peter is a lot better at this Dom thing than Hudson and Miles, but Floyd is a cowardly asswipe. There's very little communication, and that was just frustrating, and then Floyd's little scheme of taking pictures during a scene without Peter's consent.....ugh. I just can't.

#4 - *Turning the Tables* - Lee and Jacob. Oh, lord. I liked Lee. He's what I would consider a good Dom. Patient and caring, but stern, and not easily manipulated. Jacob, on the other hand, is a narrow minded, judgmental, self-loathing prick.

There ya go. Have fun.

Quick and cute. Nothing all that original here, but it had some good moments.

### **L-D says**

I think I would have liked this book better if it wasn't exactly like the first book in the series...

I read all four of these books right after the other and they were all pretty similar. Even the usage of phrases like "I am halfway in love with you". Huh? This was my least favorite book in the series though. I did like books 2 and 3 better.

### **LauraSt says**

Kinky kinky hotness!!!

What I love most about this series is the fact that -even if I find it that everyone just trusts each other so easily- their interaction and love for each other is so palpable. I just adore it.

This is Carl and Miles' story after the event that happened on book 1 of this series 'Sealing the Deal'

### **Clover says**

a nice and cute BDSM story by the queen of the genre.

**Chris says**

Very good kinky m/m romance about a guy who wakes up naked and hungover in a strange bed with no idea how he got there. And when he eventually does figure out where he is, things don't go so well...
